Administrative Staff

Personnel:

STAT   EOD'd for SSD on 5 December.

STAT   OD, reassigned to IMS on 5 December.

STAT   (U)

Consulting and Assistance Group

A draft version of the Automatic Information Management/Word Processing (AIM/WP) Reference Manual was reviewed with the DO's Information Management Staff (IMS) personnel. The requested changes are being made to the manual with a deadline of 15 December for distribution of 100 copies

STAT to IMS.   (U)

The galley proof version of the Host-Based Word Processing (HBWP) User's Guide is being reviewed for publication in the near term. The initial distribution will be for DO and DI

STAT users.   (U)

STAT   A new release of RAMIS was installed in the   Computer Center on 29 November. This release had previously been available in a test mode to all users. Only a few problems have been encountered (concerning PL/I interface to RAMIS), and these have temporary work-arounds to alleviate the

STAT problems.   (U).

Personnel:

STAT   will be transferring to the Training and Information Branch from the DI's Analytic Support Group

STAT effective 19 December.   (U)

STAT   has transferred to the Information

STAT Services Division and can now be reached on   room

STAT GA2505 Headquarters.   (U)

STAT   is in two weeks of training (a one-week course on producing instructional videotapes from 5-9 December and a one-week course on instructional

STAT techniques from 12-16 December).   (U)

The Systems Administration Branch will be splitting AIM on VM1 in the near future in an effort to improve the AIM response

STAT time on VM1.   (U)

STAT During the past week the Applications Central Library (ACL) software libraries became fully operational. The conversion of the Centralized Library System (CLS) PANVALET Library to the ACL production PANVALET Library was accomplished on schedule. All test modules that resided on the CLS PANVALET Library were moved to the ACL test PANVALET Library. This conversion brings all applications software under the configuration management control of the ACL. _____ (U)

STAT In conjunction with the establishment of the ACL PANVALET Library as the production Library for development of software, the ACF rule set for G3C data sets was updated this week. The new rules allow programmers access to the PANVALET data sets. _____ (U)

discovered in the T/S processing of P/S data were discussed,
and the appropriate "fixes" are being made by the P/S for all
P/S problems. There were problems discovered in the T/S and
with some COMIREX-T/S agreed-to limits. The P/S will continue
sending test data loads to the T/S until all P/S-caused

STAT problems are resolved. [   ] (U)
